75
Azadi Ka
Amrit Mahotsav

Dr. Pankaj Sharma
Ambassador of India to Mexico

Dear Friends,

Hon'ble Prime Minister Shri. Narendra Modi named the 75th year of independence as Amrit Mahotsav with an ambitious target of giving impetus to India's development journey and to realize the dream of a New India. The Government of India has made 75 years of Independence a unique landmark in the march of our great nation and has come up with new initiatives, programs and competitions to give shape to the various schemes for the future leading to 2047 when India celebrates the centenary of independence. Hon'ble President Smt. Droupadi Murmu noted on the occasion that Gender inequalities are reducing and women are breaking many glass ceilings. Women have made a mark in the Panchayati Raj system too. Our daughters made us proud in the recent Common Wealth Games (CWG) as well. They are becoming fighter pilots and space scientists.

In this restless journey, India is determined to set new standards of self-reliance (Atmanirbhar Bharat). This development journey is already leaving a mark as a rich and glorious legacy for tomorrow's New India. We are proud that many fellow Indians have already registered in the 'Har Ghar Tiranga' initiative. Be it in India or abroad, we should always carry the pride for our nation and our freedom fighters who have given us this precious freedom. In this regards, I urge every Indian to join the 'Har Ghar Tiranga' movement and hoist our national flag at your home from 13-15th August 2022.

I would also like to congratulate our Indian sportspersons and athletes who have shown an exemplary performance at the Commonwealth Games 2022 in Birmingham. Their sheer hard work and dedication is a lesson for everyone of us that Dreams are not impossible to achieve. We continue to make progress on various fronts for strengthening India-Mexico relations.

I look forward to meeting you at the 76th Independence Day celebrations on August 15th at the Embassy of India.

Hon'ble Prime Minister of India Shri. Narendra Modi

Highlights from 'Mann Ki Baat'

“
I urge countrymen to hoist the national flag at their home between 13-15 August. The tricolor inspires us to do something for the country
”

Mann Ki Baat

- From 2-15 August, all of us can place the tricolor as our social media profile pictures
- 2nd of August is the birth anniversary of Pingali Venkaiah who designed our national flag. I pay my homage to him
- Let's also remember the great revolutionary Madam Cama. Her role in shaping the Tricolor has been very important

“
A new initiative, Azadi ki Rail Gaadi & Railway Station, has been launched to raise awareness about 75 railway stations & their role in the freedom struggle
”

Mann Ki Baat

- Netaji Subhas Chandra Bose Junction in Jharkhand got its name after Netaji successfully dodged the British officers there
- Kakori Railway Station is the place where Ram Prasad Bismil & Ashfaq Ullah Khan raided the British Train & showed them the Indian might
- Vanchi Maniyachchi Junction in Tamil Nadu is named after Vanchinathan, where he punished a British collector for his actions

“
Azadi Ka Amrit Mahotsav is taking the form of a mass movement. People from all walks of life are participating in different programmes
”

Mann Ki Baat

- Tribute to Shaheed Udham Singh & other freedom fighters, who sacrificed their all for the nation
- In Meghalaya, people celebrated Tirot Singh's contribution to the freedom struggle through a popular carnival
- In Karnataka, unique celebrations began with Amrita Bharati Kannada Rathi that paid homage to the freedom fighters of the region

“
Honey not only imparts taste, but also health. The sweetness of honey is changing the lives of our farmers and increasing their income
”

Mann Ki Baat

- Subhash Kamboj from Haryana got trained in scientific way of beekeeping. Starting from just 6 boxes, today his beekeeping venture has about 2,000 boxes
- Vinod Kumar from Jammu has undertaken training in rearing Queen Bee. Through this work, he is earning ₹15-20 lakh annually
- Madhukeshwar Hegde from Karnataka, who availed a subsidy from the Govt for 50 bee colonies, now possesses over 800 colonies, and sells tons of honey

“
With hard work of our farmers & campaigns like National Beekeeping & Honey Mission, the sweetness of our honey has started reaching across the world
”

Mann Ki Baat

- There are so many possibilities in honey production today that even the youth pursuing professional studies are making it a source of self-employment
- Nimit Singh of Gorakhpur, a B.Tech, decided to start honey production. With his own lab in Lucknow, he earns well from honey & Bee Wax, while also training farmers
- I would like our youth to join these opportunities and take advantage of them and realize new possibilities

“
In the fight against Corona, AYUSH has played an important role, at the global level. There is a growing interest in Ayurveda & Indian medicine around the world
”

Mann Ki Baat

- Ayush Exports have witnessed a record growth and many new start-ups are also emerging in this sector
- Recently, a Global Ayush Investment & Innovation Summit was held where investment proposals of about ₹10,000 crore were received
- During the pandemic, there has been an increase in research on medicinal plants also

“
Thanks to our Start-ups and Entrepreneurs, our toy industry has achieved, what no one could have imagined
”

Mann Ki Baat

- Earlier, toys worth more than ₹3,000 crore used to come from outside, now our import has reduced by 70%
- Today, India has exported toys worth over ₹2,600 crore to foreign countries
- Indian Manufacturers are now making toys based on Indian Mythology, History and Culture

“
Be it the classroom or the playground, today our youth are making the country proud in every field
”

Mann Ki Baat

- PV Sindhu has won her first title of Singapore Open
- Neeraj Chopra won the silver medal for the country in the World Athletics Championship
- At the Ireland Para Badminton International, our players have won 11 medals
- Our athlete Suraj has done wonders in the Greco-Roman event by winning the Gold Medal of Wrestling after a long gap of 32 years

“
Melas have been of great cultural importance in our country. Fairs connect people & hearts
”

Mann Ki Baat

- If you are visiting Himachal, you cannot miss the ongoing 'Minjar Mela' of Chamba
- Saralamma Jatara Mela is celebrated by Koya tribe in honor of two tribal women heroes - Samakka and Saralamma
- Maridamma fair in AP, 'Siyawa ka Mela' in Rajasthan, the 'Mawli Mela' of Narayanpur in Chhattisgarh, Tametar & Madhopur of Gujarat are also very special

Tweets of the Month

India Corner

Hon'ble Smt. Droupadi Murmu is India's 15th President, first leader from tribal community in office

Born in 1958 in Baidaposi village of Mayurbhanj district in Odisha state of India, Smt. Murmu belongs to the Santhal community, one of India's largest tribal groups. Daughter of a village council chief, she studied at the Ramadevi Women's College in the Odisha state capital, Bhubaneswar.

Beginning her career as a clerk for the Odisha government, Ms Murmu served as a junior assistant in the irrigation and energy department from 1979-1983.

After she quit her job in Bhubaneswar and returned to Rairangpur to take care of her family at the insistence of her mother-in-law, she took up a job as a teacher at the Sri Aurobindo Integral School. Her political career began in 1997 when she was elected as a councillor in the local polls in Rairangpur. She was often seen personally supervising sanitation work in the town, standing in the sun as drains were cleaned and garbage cleared.

She was elected to the state assembly twice - in 2000 and in 2009 - from the Rairangpur seat. She was appointed as the first female governor of the state of Jharkhand. She held the position for six years until July 2021. Smt. Murmu won appreciation during her tenure for keeping the governor's office open to people from all walks of life.

She is first leader from tribal community and second woman to become the President of India.

A heartfelt tribute by Hon'ble Prime Minister Shri. Narendra Modi for Former Prime Minister of Japan, Shinzo Abe

A Tribute to My Friend Abe San - PM Narendra Modi

It was my privilege to work with Abe San to bring about an unprecedented transformation of the strategic partnership between India and Japan. From a largely narrow, bilateral economic relationship, Abe San helped turn it into a broad, comprehensive one

A Tribute to My Friend Abe San - PM Narendra Modi

Among Abe San's greatest gifts to us and his most enduring legacy, and one for which the world will always be indebted, is his foresight in recognising the changing tides and gathering storm of our time and his leadership in responding to it

A Tribute to My Friend Abe San - PM Narendra Modi

The Quad, the ASEAN-led forums, the Indo Pacific Oceans Initiative, the Asia-Africa Growth Corridor and the Coalition for Disaster Resilient Infrastructure all benefited from Abe San's contributions

A Tribute to My Friend Abe San - PM Narendra Modi

Abe San had a deep insight into the complex and multiple transitions taking place in the world, the vision to be ahead of his time to see its impact on politics, society, economy and international relations

A Tribute to My Friend Abe San - PM Narendra Modi

Every meeting with Abe San was intellectually stimulating. He was always full of new ideas and invaluable insights on governance, economy, culture, foreign policy, and various other subjects.

A Tribute to My Friend Abe San - PM Narendra Modi

In his seminal speech to the Indian Parliament in 2007, Abe San laid the ground for the emergence of the Indo Pacific region as a contemporary political, strategic and economic reality - a region that will also shape the world in this

Political Connect

Hon'ble External Affairs Minister of India Dr. S. Jaishankar held a meeting with Hon'ble Foreign Minister of Mexico H.E. Mr. Marcelo Ebrard on the sidelines of G20 Foreign Minister's Meeting.

Their discussions focused upon expanded cooperation in space, agriculture, pharmaceuticals, innovation and growing trade between India and Mexico.

India & Mexico coordination in multilateral forums including G20 remains strong.

(07 July 2022)

Glimpses of a recent meeting between Hon'ble Minister of Agriculture of Mexico H.E. Dr. Victor Villalobos & Ambassador Pankaj Sharma.

They discussed challenges & opportunities in agricultural sector; proposals & possibilities of greater investments; sharing of technology; academic collaborations etc.

Ambassador Pankaj Sharma called on Shri Kiren Rijiju, Hon'ble Minister of Law & Justice, & briefed him on the strong relations between India & Mexico.

Hon'ble Minister fondly recalled his visit to México & assured support in further strengthening ties & building collaborations in multifaceted dimensions.

(11 July 2022)

Ambassador Pankaj Sharma had a meeting with Shri Rajesh Kotecha, Secretary & Dr. Manoj Nesari, Advisor at Ministry of AYUSH, in New Delhi.

They discussed the continuing collaborations in traditional medicine & Ayurveda with Mexico & the ways of enhancing this cooperation.

(12 July 2022)

Ambassador Pankaj Sharma delivered a talk on India's Interest in Disarmament and International Security and India-Mexico Relations at Manohar Parrikar Institute for Defence Studies and Analysis.

Ambassador Sujan Chinoy currently DG of IDSA, and former Ambassador to Mexico, chaired the session. It was followed by a lively interactive session.

(16 July 2022)

Ambassador Pankaj Shamra met with the Vice-Chancellor Professor Murlimanohar Pathak & Professor Parmanand Bhardwaj at Shri Lal Bahadur Shastri National Sanskrit University.

Discussed possibilities of academic collaboration & promotion of Sanskrit in México through Universidad Autonoma del Estado de Hidalgo. (20 July 2022)

Ambassador Pankaj Sharma met with the Hon'ble Minister of Education, Skill Development & Entrepreneurship Shri Dharmendra Pradhan.

They discussed the possibilities of collaboration in higher education between India, Mexico, Honduras & USA with Purdue University led by Professor Alok Chaturvedi. (26 July 2022)

Glimpses from when the Ambassador of India to México, Dr. Pankaj Sharma & the Ambassador of México to India Mr. Federico Salas met & strengthened the bond of friendship.

They discussed enhancing trade, collaborations in academics, ayurveda, parliamentary ties, G20 etc to consolidate bilateral relations. (27 July 2022)

Ambassador Pankaj Sharma held a meeting with Dr. Rajesh Kotecha, Secretary & Dr. Manoj Nesari, Adviser, Ministry of AYUSH; Professor Murlimanohar Pathak, Vice Chancellor and Professor B.L.Sharma from Lal Bahadur Shastri National Sanskrit University & Prof Alok Chaturvedi from Purdue University, USA.

Discussions focussed on adopting an integrated approach to promoting Ayurveda, Sanskrit and Yoga , both nationally and globally. (28 July 2022)

PRESS RELEASE

Belize Receives Donation of AstraZeneca Vaccines from Government of India

Belmopan, July 27, 2022, 4:45 p.m.

The Ministry of Health & Wellness and the Ministry of Foreign Affairs are pleased to announce that AstraZeneca COVID-19 vaccines will now be available at vaccination sites countrywide thanks to a donation of 10,000 doses of the AstraZeneca vaccine by the Government of India.

The Government of Belize extends its gratitude to the people and Government of India for the invaluable donation of vaccines, which will help to protect our population against COVID-19. This is the second direct donation of vaccines that India has so generously provided to Belize.

The public is reminded that an unvaccinated person is 24 times more likely to suffer from severe illness and die due to COVID-19 when compared with vaccinated individuals. The Ministry of Health & Wellness, therefore, continues to remind persons, especially the vulnerable population such as the elderly, pregnant women and persons with underlying medical conditions, to protect themselves by getting vaccinated; continue to utilize a well-fitted face mask, especially in crowded indoor and outdoor areas; and practice regular hand washing and sanitizing, and social distancing.

The Government of India has gifted 10,000 doses of AstraZeneca's COVISHIELD vaccines made in India by Serum Institute of India, to Belize. The consignment arrived on afternoon of 27th July, 2022 at the Belize City International Airport.

Officials from Ministry of Health & Wellness and Ministry of Foreign Affairs of Belize were present to collect the vaccines. Honorary Consul of India in Belize Mr. Arun Hotchandani coordinated with the Belizean officials to ensure smooth delivery of vaccines. The donation of 10,000 doses of Astrazeneca vaccines is part of the ongoing efforts of the Government of India under #Vaccine #Maitri programme to supply Covid vaccines to partner countries all over the world including in Latin America region.

The Belizean Government expressed their gratitude to the Government and the People of India, and in particular to Hon'ble Prime Minister Shri. Narendra Modi, for the donation of the vaccines through a official press release. The Health Minister in the same vein reiterated the scarce supply of vaccines and thanked India for the timely gift. This is second direct donation of vaccines that India has provided to Belize.

ECHOES OF GURUDEV TAGORE IN MEXICO- Cultural & Literary Outreach

Rabindranath Tagore was born on 7th May 1861. He was a great Indian polymath-poet, painter, philosopher, social reformer, playwright as well as composer. Rabindranath was mostly known for his poetry as he had written many novels, short stories, dramas, essays, travelogues, and thousands of songs. The rhythmic, optimistic, and lyrical nature which was mostly borrowed from the real-life of the people, was frequently noted.

Tagore's aesthetics represented an inspiration for the literary profession in Mexico. This was expressed in Vasconcelos's essay *Indology*, written in 1926. This is an example of how Tagore's voice became a guide for the literary profession at that time. Tagore offered inspiration and literary guidance to Mexican writers, poets and philosophers. Moreover, Mexican scholars of the humanities in the first two decades of the twentieth century considered the Bengali poet's literature as part of a global tradition where the voices of Asia and the Mesoamerican cultures spoke out in harmony.

Here I present some responses from the Mexican community to Tagore's Nobel Prize, especially by Vasconcelos and Octavio Paz (1914-1998). By surveying Tagore's reception in Mexico we can see how it is still valid and what The Atheneum of Youth founded in 1909 was a Mexican cultural, literary, philosophical and humanistic movement of the first quarter of the twentieth century did by leaving its footprints on time. Its intellectual activity drew the attention of the country as well as of various similar Latin American literary circles. At the heart of this movement was a discussion not only of European literature and philosophy but also of the Eastern traditions, particularly of Tagore's literature. The central problem was the access to his rich Bengali work but intellectuals like Vasconcelos brought about respect and recognition for India's literary and philosophical traditions. It was at that moment that the admiration for the Indian poet grew, along with Vasconcelos's re-reading of Indian texts that he shared with various Latin American writers. All this allowed Tagore's works to become a port of entry for South Asian culture.

The dissemination, impact and responses to Tagore's work increased in national importance when José Vasconcelos returned from exile to Mexico to occupy two strategic posts from 1920 to 1924. He was the Rector of the National University of Mexico and the head of the Ministry of Public Education. It was then that he distributed editions of Tagore's *Nationalism*, *The Crescent Moon*, *Personality* and *Sadhana* in Mexico along with works by authors like Tolstoy and Plato. In 2011, Vasconcelos's classic collection was reprinted in a historical context where reading classics becomes a habit again in the chiaroscuro of Mexican intellectual forays.

After Tagore's visits to Argentina, Vasconcelos always believed that Mexico should receive Tagore. Indeed, Tagore never visited Mexico, but this does not minimize the impact of his thought and literature. After Vasconcelos, the impact and response to Tagore's works broadened and, in the 1960's, they occupied a literary and poetic position that acted as a bridge between Mexico and India. The main protagonist in constructing this bridge was Octavio Paz. Paz, the Nobel Laureate of literature in 1990, recognized Tagore's work as a bridge between India's literary, philosophical, humanistic, and religious traditions and the world. Literary works provided in translations circulating in Mexico made Tagore's work relevant for all time.

Tagore's philosophy of education stresses the place of poetry, music as opposed to present-day education. Today, the humanities are allowed to be pushed into the background by various educational reforms. Martha Nussbaum's book 'Not for profit: Why democracy needs the Humanities' refers to Tagore as a defender of the humanities and art to promote a critical, humanistic and creative education. In 1964, the Centro de Estudios de Asia y África (CEAA) was founded as a specialized Centre of Studies at El Colegio de México, COLMEX, a prestigious research center focused on social sciences, where the study and research of Asian languages is part of the of postgraduate programmes in Asian Studies. Over the 1960's various projects of UNESCO focused on East-West relationship; one of these was the creation of this center in Mexico. Since its foundation it nurtured a high interest in philosophy, literature, history, religions, and even more in the study of classic and modern Asian languages. The study of Sanskrit, Hindi and Bengali by Ph.D. students, became the basis of a major project of translation from Asian languages into Spanish. This is the scenario from which some translations of Tagore's works from Hindi versions into Spanish have been published at Mexico. A recent example of this is the translation into Spanish of Kabuliwala in 2009.

Much more could be done by the present day scholars in popularizing thinkers and philosophers like Tagore and reviving the Chair at COLMEX on Indian Studies, International Relations could go a long way in bringing Tagore to the present day Mexico. That would be the greatest service what the Gurudev Tagore Indian Cultural Centre, GTICC, Embassy of India, Mexico City could do.

Dr ShriMati Das
FS & Director- GTICC

India's March Towards Aatmanirbharta **- Amb. (Dr.) Mohan Kumar**

It was in May 2020 that Indian Prime Minister Modi made a clarion call for a Bharat that was “Aatmanirbhar”. It is important to clarify what this meant and what it did not. While a rough translation of the word is no doubt “self-reliant”, it is nevertheless not the kind of self-reliance that India arguably believed and practiced in the early years of its independence up until the seventies and eighties. It is easy to state what it is not. It is certainly not autarchy; it is certainly not inward-looking; and it is most certainly not stopping imports and making every product at home. It may be more prudent to think of “Aatmanirbharta” as Self-Reliance 2.0.

In this framework of Self-Reliance 2.0, the PM clarified that rather than be self-centred, India will open up even more to the world outside, guided by its motto: Vasudhaiva Kutumbakam, or our Earth is just one family. PM Modi went on to say that Aatmanirbharta will stand on five pillars: economy, infrastructure, technology, demography and demand. PM explained the raison d'être of Aatmanirbharta by saying that this should prepare India for participation in global supply chains and that this is a battle India cannot afford to lose.

There is little doubt that the global pandemic i.e. COVID-19, played a significant role in India's push for Self-Reliance 2.0. Take the simple example of PPE (Personal Protective Equipment) and N-95 masks. At the beginning of the pandemic, India was not making any N-95 masks. Today, India manufactures at least 200,000 N-95 masks a day, if not more. Even more impressive is India's own record of vaccinating its mammoth population. In 2020 when COVID emerged, almost no one believed India could ever fully vaccinate its population and that such an exercise would take years and years. Yet, in July 2022, about 18 months the first vaccination began, India completed 2 billion doses of vaccines for its citizens. The story of how this was achieved is worthy of a case study which will cover vital issues such as public-private partnership, centre-state cooperation and not to mention building awareness among citizens and getting their participation willingly in this exercise. Indeed, the WHO and others have praised India and the best practices here will be emulated the world over. Proving that Self-Reliance 2.0 is not just for Indians, India also exported a large number of vaccines and PPE countries all over the world. The latest statistics from the MEA website talks of 240 million (approx) vaccines which have been delivered to 101 countries, of which there are developed, developing and least-developed countries.

The story of India being the pharmacy of the world is too well known to bear any repetition here. All of this is real “aatmanirbharta” at work.

The COWIN platform that India used for distributing vaccines to its mammoth population was remarkable. COWIN is essentially a cloud-based IT solution for planning, implementing, monitoring and evaluating COVID vaccination in India. By July 2021, India decided to make this open platform available to all countries for their use. In the COWIN global conclave organized in July 2021, as many as 142 countries in the world expressed interest in adopting this platform. Again, this is Aatmanirbharta at work.

The war in Ukraine has had a profound impact not just in Europe, but more importantly for developing and least-developed countries. Specifically, the war has impacted food, energy and commodity prices adversely. Wheat shortage in particular, is expected to affect Africa and the Middle-East quite significantly. At a time like this, it is comforting to know that India’s position when it comes to food security for its huge population is satisfactory. This is yet another manifestation of Self-Reliance 2.0. Indeed, not only was India able to give away food-grains and lentils to 800 million of its citizens as part of the Pradhan Mantri Garib Kalyan Yojana, India was also able to carry out modest exports of food-grains to low income countries that needed it. Again, Aatmanirbharta at work.

Yet another amazing success story of Aatmanirbharta is the case of Unified Payments Interface (UPI) which is a government-backed centralized digital payment gateway, widely popular in India. To understand the significance of UPI, consider this: India accounted for the largest number of worldwide digital transactions in 2021 at a whopping 48 billion, a number that is nearly three times bigger than China’s (18 billion) and is at least six times bigger than the transactions of US, Canada, UK, France and Germany combined. Voices in the US are saying that we must learn from India which is leapfrogging into the future. Again, Aatmanirbharta at work.

The above is not to suggest that everything is rosy. India faces monumental challenges with regard to eradication of poverty, job creation and investment in health/education/skills of its vast population. But the lessons are clear: India is sui generis and it is only an “Indian” model that will work for India and Indians. Hence, the capital importance of Aatmanirbharta. After all, as we have seen above, ‘Aatmanirbhar Bharat’ is not just good for India but also for the world at large.

[Ambassador (Dr.) Mohan Kumar is a former Indian Ambassador and a full time academic now.]

Ambassador Pankaj Sharma & Second Secretary (E&C) Vallari Gaikwad participated in a video conference between Delhi's MCD Commissioner Mr. Gyanesh Bharti & Hoskinson Group's President Jay Culberth & DG Gustavo Solórzano facilitated by FICCI India's DDG Mr. Manish Singhal & Head of LAC Division Mr. Imran Khan.

Discussed the problem of urban solid waste management in Delhi & the possible collaboration & investment by Hoskinson Group & their technology in converting solid waste to clean electrical energy. (07 July 2022)

Business In Focus

Mr. C.M Dabral and his wife Mrs. Renu Dabral own the Royal India Restaurant and Anjli Indian clothing stores in Mexico City. They descend from the north of India and arrived in Mexico in 1999.

They started a textile business and opened five stores of clothing imported from India under the brand “ANJLI”. Both felt the need of authentic and invigorating flavours from India which got them to enter hospitality industry and laid the foundation of ROYAL INDIA restaurant. On December 15, 2018, ROYAL INDIA was official inaugurated.

Since then, ROYAL INDIA has been providing exquisite and delicious cuisines to all. The pandemic did not prevent them from moving ahead with the home delivery service. It is a proud moment that they are regarded as one of the best restaurants among top 100 restaurants in CDMX, in “MARCO BETETA” magazine, result of collective effort of the staff of Royal India who are working each day to improve the taste and create exotic dishes to bring some variety on the table for its customers.

The food is made with natural and authentic products under hygienic conditions, fit for consumption. Likewise, their restaurant takes forward the legacy of Indian restaurants where its customers feel homely and served with utmost love. The concept of their decorative interiors is to obtain a vision of the tradition of India in this country that has warmly welcomed them. They feel very grateful for the opportunities that Mexico has given them.

Address: Av. Homero 1500, local 2, Polanco. Between street Sófocles and street Plineo, Miguel Hidalgo, C.P. 11550,
